

COVID-19 PRECAUTIONS

The following precautions are being implemented, to help prevent the spread of viruses:

Seating areas have been closed to maintain recommended social distancing

Sanitation stations have been added for additional hand sanitization opportunities

Frequent cleaning of the interior areas will occur, disinfecting "high touch" surfaces

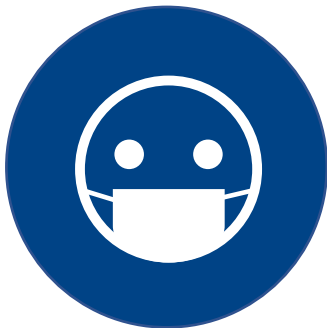

Operating procedures have been modified, so as to limit direct contact between individuals

To minimize transfer of materials, the trolley will be operating on a free-will donation

Riders will be limited to nine (9) at any given time, including children, to allow for proper social distancing to occur.

The use of masks is not required but is strongly recommended while riding the trolley.

Individuals who are feeling ill or exhibiting known symptoms of COVID-19 are encouraged to stay home. Stellar Limousine, LLC is monitoring and enforcing all recommendations from the CDC for passenger transport and vehicle cleaning processes. Should you have any questions, please call 605.335.4041.
